

“Planning for Arts and Cultural Development”

Course focus

This is a rare opportunity for Arts and Cultural Managers in local Government or Arts business to further develop their skills and professional capabilities in Arts/Cultural Project Management.

The Course focuses on:

- Understanding our roles as Arts/Cultural project managers
- Preparing for and building community engagement
- Designing and managing complex projects
- Developing high level research, analysis and Strategic Planning Skills
- Developing skills in Conflict Resolution
- Exploring and applying for grant opportunities/Arts Project Applications

Course outcomes

Through theoretical lectures, current practice, mentoring, assignment work, on the job application, excursions, project presentation and working in small teams you will develop and deliver an arts project.

Pre-requisites

There are no formal prerequisites for this qualification; however you will need to have been working in the field or in local government to have some experience of project management, working with artists or cultural groups.
